

Automated speed enforcement is the use of technology to enforce speed limits. Automated speed enforcement works by using cameras or sensors to pick up a vehicle speeding. A ticket is then issued to the owner of the vehicle. Driver's license points are not issued as the driver of the vehicle cannot be identified. Do you approve or disapprove of using the following kinds of speed enforcement in British Columbia?

	British Columbia	GENDER		AGE			REGION					VOTE IN 2017 PROVINCIAL			ETHNICITY		
		Male	Female	18-34	35-54	55+	Metro Vancouver	Fraser Valley	Northern BC	Southern BC	Vancouver Island	BC Liberals	BC NDP	BC Green	European	East Asian	Other
<i>Fixed speed cameras – Cameras that stay in one location and measure speed as a vehicle passes; they can be placed in school zones or on other roads.</i>
