

Ride-hailing Companies, such as Uber and Lyft, have applied to operate in British Columbia. Some people oppose ride hailing in BC other people support ride hailing provided they complete on an equal playing field as taxis. Thinking about this, which of the following statements comes closest to your own point of view?

Ride-hailing companies, such as Uber and Lyft, say that their economic model works best for customers if they are able to have an unlimited number of cars on the road. Some people believe the fleet size of ride-hailing companies should be limited to curb congestion, air pollution and to protect the environment. Thinking about this, do you think the Government of British Columbia should limit the number of ride-hailing cars on the road?
