Poll conducted by Research Co. on Organ Donation in Canada - October 25, 2022

As you may know, some jurisdictions around the world have implemented an "Active Donor Registration" system for organ and tissue donation after death. Under this system, every person over the age of 18 is considered an organ and tissue donor unless they specifically opt-out of a registry. Thinking about this, do you think your Canadian province should implement an "Active Donor Registration" system for organ and tissue donation after death?
