Canada, British Columbia, and First Nations on the BC coast are planning to establish a network of Marine Protected Areas representing approximately 30% of waters in the Northern Shelf Bioregion, which is the part of the BC coast stretching from the middle of Vancouver Island to the Alaska border. Given what you know, would you SUPPORT or OPPOSE the creation of a network of Marine Protected Areas to protect a total of 30% of the waters of BC's Northern Shelf Bioregion?
