As you may now, more than half of registered voters have cast ballots in the last three provincial elections held in Alberta: 57.0% in 2015, 67.5% in 2019 and 59.5% in 2023. Thinking about this, would each of the levels of participation from registered voters in Alberta listed below be sufficient for the results of the October 19, 2026, provincial referendum to be considered a true representation of the wishes of Albertans?
